LAKE REGION ELECTRIC COOPERATIVE, INC
SURGE PROTECTION INSTALLATION VERIFICATION

I hereby lease a Single-Phase Power Protector that will become part of my meter but is owned by and maintained by Lake Region Electric Cooperative, Inc (LREC). I agree that the minimum installation period shall be for 36 consecutive months from the date of installation. I agree to pay a non-refundable charge of $30 LREC, which will be charged to my electric account immediately following the installation of the unit. The lease payment of $5 will be added to my monthly electric bill. At the time the 36-month contract has been fulfilled, LREC will continue to provide maintenance on the device on a month by month basis as long as the monthly fee is current. If I close my account or want to discontinue the lease program before the 36 consecutive months have passed, I understand that I will be billed on my next electric bill the remaining balance of the 36-month lease contract agreement. The devices(s) as installed remain the property of LREC. The unit will be removed upon request or may be removed by the Cooperative due to failure to pay the charges set forth herein but does not relieve LREC member of such charges until the contract has been successfully fulfilled.

LREC is not liable for surge damages nor is the Cooperative responsible for personal interior plug-in surge suppressors that may be in use. I understand it is my responsibility to see that the service equipment meets all local and National Electric Code requirements for service grounding.

I understand that is my responsibility to notify LREC in the event of a device claim while I am under contract. Also, I understand the warranty claim will be filed with the device manufacturer and is not a warranty with the Cooperative.

Signed and agreed to this on _____ day of _____, _____.
